Hack Yourself First!

Engineered Cyber Insurance

Vulnerability scan & threat intelligence

Offense informs defense. Our **Hack Yourself First** platform is critical to cyber self-defense and a key to getting the right cyber insurance solution for your middle market insureds.

24/7 threat monitoring and alerts

Our **hacker team** has successfully hacked into banks, healthcare providers, retail websites, social networks, government systems, and more. Using the same techniques as the bad guys, we find holes in your insureds networks, websites and software.

A+ rated insurers

We fix the gaps and provide ongoing monitoring and alerts to keep your insured safe during the policy period. The result is expanded coverage, lower retentions and better pricing. A holistic solution!

$10M + capacity

Ideal for insureds to $500M revenue

Your insureds deserve more than an insurance policy provided by the low bidder. Give us a call!
